Forward Looking Statements

This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or IEH's future financial performance. Any statements that are not statements of historical fact (including without limitation statements to the effect that the Company or its management "believes", "expects", "anticipates", "plans", "intends" and similar expressions) should be considered forward looking statements that involve risks and uncertainties which could cause actual events or IEH's actual results to differ materially from those indicated by the forward-looking statements. For a discussion of such risks and uncertainties, see "Risk Factors" in the company's periodic reports filed with the SEC, including our Annual Report on Form 10-K for the fiscal year ended March 31, 2024. In light of the risks and uncertainties inherent in the forward-looking statements included herein, the inclusion of such statements should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved. The forward-looking statements contained in this presentation are made as of the date hereof and may become outdated over time. The Company does not assume any responsibility for updating any forward-looking statements.

HISTORY

- Late 1940's, began manufacturing tube sockets for consumer electronics industry

- Changed name to "Industrial Hardware", and went public July 29, 1954

Industrial Hardware Manufacturing Co., Inc. (N. Y.)—
Stock Offered—An issue of 185,000 shares of common stock (par 50 cents) was publicly offered on July 29 at \$3 per share by Milton D. Blauner & Co., Inc.; Hallowell, Sulzberger & Co.; and Baruch Brothers & Co., Inc. Of the total, 166,000 shares are being offered for the company's account and the remaining 78,200 shares for the account of Louis Offerman, its Vice-President.

The net proceeds to the company are to be used to repay bank loans and pay taxes, and for working capital.—V, 106, p. 201.

HISTORY

- 1960's - business evolved from tube sockets to transistor and cathode ray tube (CRT) sockets

- By 1970's IEH was the largest CRT socket manufacturer in the world, making 70M sockets per year

Louis Offerman and his two sons Bernard and Seymour at IEH, 1965

HISTORY

Late 60's - IEH purchased a non-exclusive license to produce Hyperboloid contacts, from FRB, and achieved qualification to the military specification for PCB connectors.

HISTORY

Late 70's through 1990's - IEH business in military PCB connectors took off, due to customer demand for lower insertion forces.

Product offering has grown from there, driven by customer demand and market determinations.

What is Hyperboloid Technology

The Hyperboloid contact is an advanced design that satisfies performance requirements previously considered impossible. Unique in concept, it is used in connectors having the highest standards of performance. The distinguishing feature of the Hyperboloid socket is the hyperboloid-shaped sleeve formed by straight wires strung at an angle to the longitudinal axis. When the pin is inserted into this sleeve, the wires stretch, well within elastic limits, to accommodate it. In so doing, the wires wrap themselves around the pin providing a number of continuous line contact paths.

- Low Insertion/ Extraction Forces

- Impervious to Shock & Vibration

- Higher Current- Carrying Capacity

- Longer Life

Notes on Revenue

18 years of steady, profitable, debt-free growth, until...

Two Consecutive Black Swan Events...

- Boeing 737MAX twin crashes and subsequent worldwide grounding, affecting 7- 10% of IEH revenue
- COVID- 19, air travel declines 90% in one week, affecting another 25% of IEH revenue
- And, Defense revenue declines due to shift in defense posture and priorities

Since then

- *SLOW* Boeing recovery
- Defense Spending accelerating
- Commercial Space Launch business "taking off"

IEHCORP.COM

After a 45% decline from FY2021-2023, revenue has since recovered 47%*, and on track for 3rd best year ever

*Fiscal 2025 projection

SAP Migration Issue and SEC Notice

- Inventory discrepancy when moving from legacy MRP to SAP platform, impeding financial reporting from fiscal years 2021-2023

Awaiting decision from SEC on petition for dismissal

- SEC sent notice threatening to delist Aug 2022

- May 2023 IEH files "Super-10K", covering fiscal years 2021-2023, and has filed each subsequent Q and K on time

- Currently petitioning SEC for dismissal

**Moving
Forward...**

Market Recovery and Sector Growth

Defense Market Resurgence

Airbus increases

Boeing accelerating production

Commercial Space Launch ascendant

Strategic Diversification

Beyond "Two Baskets"
